SUMMARY

I intend to be a part of an organization where I can make best use of my technical skills for the growth of the company while consistently learning and developing my knowledge.

PROFESSIONAL DETAILS

Web Developer : Python 2 May'20 - 23 Aug'20

MANAC INFOTECH (P) LTD

A course on WEB DEVELOPMENT at "MANAC InfoTech (P) Limited". The training commenced & I started with HTML and CSS simultaneously. The modules were short, simple, and descriptive enough to raise my interest in this domain. I progressed to the next module which was Bootstrap. Working on Bootstrap presented the real fun and it made me love coding. Once I had learned the concepts, I didn't even need to write the complete code; I'd just add the class name and observe the magic! The support I received from team MANAC made me competent in web Development.

IC Engines and Design 26 Jun'20 - 26 Jul'20

InMovidu Technologies

This Internship had helped me a lot to gain first-hand exposure and experience of working in the real world. It helps us to gain practical hands-on experience along with the theoretical knowledge by the best mentors and trainers.

Intern 1 Jun'19 - 31 Jul'19

VERZEO EDUTECH PVT. LTD

This course involved the understanding of drafting tools and how to draw different components using AutoCAD. The files that it generates, import cleanly to other drafting and visualization programs well because it is so ubiquitous. It allows to produce drawing sets, as well as diagrams and sketches. It is a lot simpler than other software, in that it's just linework. But sometimes, that makes it better and allows for greater design, as you have to control each element more specifically.

Trainee 20 Jan'20 - 1 Feb'20

RINL- VISAKHAPATNAM

RINL Steel Plant is a fast paced ,Set continuous casting steel rolling mills makes itself a competitive ground on a day to day basis as every second is money in terms of materials manufactured at the place. Everyday, is a new challenge and at the same time it's a place of great minds collaborating with each other. Since it is a Government company, I got a very good opportunity to work over there, where I got lot of real life exposure in Training & Development.

ACADEMIC DETAILS

B.Tech/B.E.

Mechanical Engineering
JNTUA College of Engineering (Jawaharlal
Nehru Technological University, Ananthapur)
| 2021
CGPA - 7.01/10.00

XII

SRI GAYATRI JUNIOR COLLEGE (BIEAP) |
2017
Percentage - 95.90%

X
VIDYASAGAR ENGLISH MEDIUM HIGH SCHOOL
(BSE-AP)|2015
CGPA - 9.30/10.00
